

TEXTBOOK REVIEW

13th May, 2017

A three module textbook has been created in the framework of *NordPlus Adult* project NPAD-2015/10009 „Innovative vocational foreign language teaching - a key to adult learning motivation“ and presents the most essential teaching material of the English language focusing on vocational training and the development of writing, listening, reading and communication skills.

This textbook is an excellent resource to students, language teachers and anybody who would like to improve their vocational foreign language competencies.

All three modules are organized in a logical, consistent way and cover certain topics as „Services at the cafe“, „Services at the restaurant“ and „Services at the bar“, “Means of transportation”, “Parts of vehicles”, “Traffic regulations, cargo shipment, travelling”, “Business: General Background”, “Business Etiquette” and “Intercultural Dimension within Business Communication”.

The linguistic resources and examples have been carefully chosen and are followed by a huge variety of comprehension activities, which are interesting, motivating, facilitate learning and memorization of new concepts and terms.

The textbook contains various illustrations, which make the learning resource more attractive to the reader.

It is obvious that the authors of the textbook are professionals in their field with solid practical experience.

Overall, the textbook is perfectly designed to provide English language learners and educators with the techniques and structures for specific situations while solidifying their fundamental language skills and systems.
