<b>Description of the activity:</b>	Introduction	Tell students: you are asked to visit people who live at nursing home. It means you have to call to this center and arrange an appointment. Students do this activity as a group. They will go to a nursing home together. However think about questions which you would like to ask the people from this center, if you do not know the questions which you want to ask them, please ask your teacher for help.	
	Main activity	Find on the Internet the nursing home which is in your town, then call to this center and arrange an appointment with them. But don't forget to explain the reason why you want to visit with the people who are in this nursing home. You can meet with a group of people or only with one person. It would be very polite to bring them some presents. It is up to you what you create for them. This little something from you will make them happy.  At the nursing home: introduce yourself and the project you are part of it. After that give the gift(s) to people from this nursing home. Ask them the questions you have prepared or talk about their life, how they feel here or about their family ect.	
	Conclusion and Evaluation	At the end of the activity, take a photo with people from this meeting. Thank them for a time they spent with you.
